

## **Formula Bambino Race Report Round 11 – Saturday 12<sup>th</sup> November 2011**

Saturday 12<sup>th</sup> November saw round 11 of the Daytona Manchester Formula Bambino championship get underway. This month we had another great turn out with 12 drivers taking part, which included 1 newcomer Cody Quigley to the championship.

Proceedings started at 9.00am with a heats list being posted on the blue notice board and heat 1 drivers being called to the pit lane. As always, the kart numbers were concealed and the timing screens were left turned off to keep everyone in suspense of the times being set.

Heat 1 saw the first session of the day get underway with 4 drivers taking to the track. All drivers took a few laps to settle in but once they had the lap times started to tumble. Setting the quickest time for the session of a 33.510s was Harry Grindrod.

Heat 2 saw another 4 drivers take to the circuit for their first run of the day, again it took a few laps for the drivers to get warmed up but once they had we saw some great times being set. James Walker was the fastest driver for this heat setting a 31.281s lap time

Heat 3 saw the last 4 drivers take to the track for their first heat, throughout the heat a great battle developed between Matthew and Archie to see who could set the quickest time, as the timer ran out it was Archie who managed to take it setting a 31.012s lap time

Heat 4 was the start of the driver's second runs out and this time round all drivers were noticeably quicker now that the track, karts and drivers were properly warmed up. The times in this session were very close with 3 of the drivers all within a 10th of each other, however it was James Walker who went on to set the quickest time for the heat of a 30.455s Lap time.

Heat 5 was once again another closely fought battle with all drivers starting off well, as the laps clocked up the times tumbled. Matthew and Jonathan had a great little battle going on mid way through the heat until Matthew found an extra bit of speed and managed to go on to set a time of 30.346 seconds

Heat 6 was the last outing of the day and the last chance for drivers to secure a place on the podium, due to a kart failure in the previous heat a spare kart had to be brought into use, to ensure the driver of the kart, Sam Pattison, wasn't at an unfair advantage it was decided to give him 5 laps to get some heat into the tyres. Once this had been done the rest of the drivers joined Sam on track for the session. All drivers got off to a flying start with quick times getting set from lap 1, it was Sam who was looking like he was going to

have the quickest time after setting his personal best time of a 30.307s but when the chequered flag fell it was Archie who just managed to take it with a 30.037 second lap time.

So after another great performance from all of our drivers and the lap times being closer than ever, the level of talent shows that it is continuing to grow.

The quickest time for each driver in their sessions was as follows:

Harry Grindrod	33.510
