

Round 9

28th September

2014

Juniors

Inkart Championship 2014

Heat 1

Dominic Caulfield on pole position for heat number 1 of the junior event, Dominic got off to a good start but was closely followed by Andre and Christian who managed to stick with him for the length of the race but were unable to make up any positions. James Brown got a

poor start and dropped from p3 down to p7 in the opening lap and stayed there for the remainder of the race.

Christian again showed that he has got to grips with the sodi's quicker than anyone else setting fastest lap of the race by nearly half a second although only managing 3rd

place finish behind Dominic and Andre.

Heat 2

Christian on pole position looking to have another good race, he gets a good start and straight away starts to pull away, again setting fastest lap of the race but 0.2 of a second. Seb Duesbury made a very good start moving up from 5th to 2nd on lap 1. James again struggling for pace in this class dropped back to p8 by the end of the

race but was constantly improving his lap times and getting closer to the pace. Ben Walker tries to make his way through the field after starting 6th but could only manage 5th place, Ben appears to be struggling a little for pace and wasn't up to his usual standard. Back at the front a relatively spread out race with drivers

finishing with 1 second between each position. Christian took the race win ahead of Seb the Dominic in 3rd position.

Heat 3

Heat 3 was a relatively straight forward race, Seb Duesbury on pole position with Andre and Ben behind him. Ben makes a good overtake on the opening lap to pass Andre for p2 then moves on to try and overtake Seb for the lead. Oliver, Luke and

Christian all find their way past James in the opening laps to move up the order. Ben Walker sets fastest lap of the junior event so far while chasing Seb but is unable to make an overtake. He finishes 0.182 seconds behind Seb and over 3 seconds

ahead of Andre who rounds out the top 3.

Heat 4

Luke Jenkinson made a good start from pole position. With Ben following him up into 2nd place. Oliver Flexen picked up a black flag for ABC on hairpin one which dropped him down to last

position. Other than that there were no position changes in a very close race with all the drivers evenly matched that it wasn't possible for anyone to make an overtake. Luke took the race win by 0.332

over Ben with Seb and Christian both less than 1 second behind Ben.

The Final

Seb Duesbury starts on Pole position for the final after scoring some very good results in the heats. He gets off to a good start staying ahead of Ben Walker for a few corners before losing out later in the lap. Drama at the first hairpin as Andre Missed his braking point hitting Dominic and taking the rest of the field into the barriers with them. This gave Ben and Seb a lot of breathing space but made it a very close battle for 3rd position. It was Dominic who got the lead in this

battle getting out of the barriers first. Andre picked up a black flag for the incident which dropped him right out of the race. Into lap 10 and Dominic makes a mistake in 3rd place dropping him down to 5th position behind Luke and Christian. He has no answer for their pace and has to settle for 5th position. Back at the front it's Ben who took the final win 4.6 seconds ahead of Seb who was a further 19 second ahead of Luke.
